JOYLYN K. GURURE

UI/UX Developer · Front-End Web and Mobile

Highfield, Harare, Zimbabwe | +263 788 735 065 | +263 779 741 705 | quegurure16@gmail.com | joylynportifolio.vercel.app

PROFILE

UI/UX-focused developer with a Bachelor of Information Technology (Honours, upper second class) and over two years of combined experience in software development and IT support. Builds web and mobile interfaces in React, Next.js and React Native, working against NestJS APIs and PostgreSQL. Having supported and trained users first-hand, pays close attention to where people get confused and uses that when shaping screens.

EXPERIENCE

Graduate Trainee, Software Development

2024 – Present

Growthsensetech Limited, Harare

- Build and maintain web and mobile interfaces for enterprise applications using React, Next.js and React Native.
- Connect the front end to NestJS services and PostgreSQL data, and check APIs with Postman and Swagger.
- Track down configuration, performance and integration problems that affect how the product feels to use.
- Help with implementation, testing, deployment and maintenance across the development cycle.
- Write documentation and user guides, and support internal users. Problems that keep coming up go back to the team as improvements.
- Support account management and access control inside the applications, and take part in monitoring and validation testing.

IT Intern

2022 – 2023

Judicial Service Commission, Harare High Court

- First-line technical support for staff and users of the case management system.
- Captured and retrieved case data while following confidentiality and information-security policies.
- Installed and configured hardware, operating systems and business applications.
- Helped with website updates and routine system maintenance.
- Documented IT procedures and gave users technical guidance.
